📍 United States

EDUCATION

Johns Hopkins University

August 2020 - Current

Doctor of Philosophy in Astronomy and Astrophysics

Advisor: Professor Adam G. Riess

University of California, Berkeley

August 2016 - May 2020

Bachelor of Arts, High Honors in Physics, cum laude

Thesis Advisor: Professor George F. Smoot III

FIRST AUTHOR PUBLICATIONS

Siyang Li, George F. Smoot III. “Characterization of a high efficiency silicon photomultiplier for millisecond to sub-microsecond astrophysical transient searches”, in [*SPIE Astronomical Telescopes + Instrumentation; X-Ray, Optical, and Infrared Detectors for Astronomy IX*], *Proc. SPIE 11454*, 1145422 (December 13, 2020).

Siyang Li, George F. Smoot III, Bruce Grossan, Albert Wai Kit Lau, Marzhan Bekbalanova, Mehdi Shafiee, Thorsten Stezelberger. “Program objectives and specifications for the Ultra-Fast Astronomy observatory”, in [*8th Applied Optics and Photonics China; Space Optics, Telescopes and Instrumentation*], *Proc. SPIE 11341*, 113411Y (December 18, 2019).

Siyang Li, George F. Smoot III. “Characterization of a silicon photomultiplier for the Ultra-Fast Astronomy telescope”, in [*SPIE Optics + Photonics; UV/Optical/IR Space Telescopes and Instruments: Innovative Technologies and Concepts IX*], *Proc. SPIE 11115*, 111150A (September 9, 2019).

Siyang Li, Jérôme Maire, Maren Cosens, Shelley A. Wright. “Detector characterization of a near-infrared discrete avalanche photodiode 5x5 array for astrophysical observations”, in [*SPIE Defense + Commercial Sensing; Infrared Technology and Applications XLV*], *Proc. SPIE 11002*, 110022G (May 7, 2019).

CO-AUTHOR PUBLICATIONS

Albert W. K. Lau, Mehdi Shafiee, George F. Smoot, Bruce Grossan, **Siyang Li**, Zhanat Maksut, “On-sky silicon photomultiplier detector performance measurements for millisecond to sub-microsecond optical source variability studies”, *Journal of Astronomical Telescopes, Instruments, and Systems* 6(4), 046002 (2020).

PRESENTATIONS

“Characterization of a high efficiency silicon photomultiplier for millisecond to sub-microsecond astrophysical transient searches”, *SPIE Astronomical Telescopes + Instrumentation; X-Ray, Optical, and Infrared Detectors for Astronomy IX (Conference 11454)*, Online due to COVID-19 pandemic. Poster and oral presentations (December 14-18, 2020).

“Characterization of silicon photomultipliers for astrophysical observations”, *Summer Undergraduate Research Fellowship Conference*, Berkeley, California, United States. Oral presentation (August 22, 2019).

“Characterization of a silicon photomultiplier for the Ultra-Fast Astronomy telescope”, *SPIE Optics + Photonics; UV/Optical/IR Space Telescopes and Instruments: Innovative Technologies and Concepts IX (Conference 11115)*, San Diego, California, United States. Oral presentation (August 11, 2019).

“Program Objectives and Specifications for the Ultra-Fast Astrophysics Observatory”, *8th Applied Optics and Photonics China; Space Optics, Telescopes and Instrumentation (Conference 10)*, Beijing, China. Poster presentation (July 8-9, 2019).

“Development of a Single Photon Counting Detector Calibration Facility for the Ultra Fast Astronomy Project”, *Exploring the Energetic Universe*, Nur-Sultan, Kazakhstan. Oral presentation (June 20, 2019).

“Detector characterization of a near-infrared discrete avalanche photodiode 5x5 array for astrophysical observations”, *SPIE Defense + Commercial Sensing; Infrared Technology and Applications XLV (Conference 11002)*, Baltimore, Maryland, United States. Poster presentation (April 16, 2019).

“Characterization of a Silicon Photomultiplier for the Ultra Fast Astronomy Telescope”, *Berkeley Physics Department Poster Session*, Berkeley, California, United States. Poster presentation (April 5, 2019).

“Probing Cosmic Dawn: A Search for Nanosecond Optical Counterparts to Fast Radio Bursts”, *Berkeley Physics Department Poster Session*, Berkeley, California, United States. Poster presentation (April 6, 2018).

PROVISIONAL PATENT

Siyang Li, George F. Smoot III, Thorsten Stezelberger. “Silicon Photomultiplier Telescope Camera,” U.S. Provisional Patent Ser. No. 62/940,250, filed November 26, 2019.

AWARDS AND FELLOWSHIPS

Regents’ and Chancellor’s Scholarship 2016 - 2020
Awarded to the highest ranked (1.6%) undergraduates at the University of California, Berkeley.

**Society of Photo-Optical Instrumentation Engineers (SPIE)
Optics and Photonics Education Scholarship** 2019
Awarded “to outstanding individuals for their potential long-range contribution to optics, photonics, or other related fields” from around the world.

8th Applied Optics and Photonics China Best Poster Award 2019
Awarded for the best poster at the 8th Applied Optics and Photonics China conference. Evaluated among posters written by master’s students, Ph.D. students, and postdocs from around the world.

Measurement Science Conference Scholarship 2019
National scholarship awarded to individuals who demonstrate potential and achievements related to measurement science. Recipients also receive full admission to the Measurement Science Conference in Anaheim, California from April 16-19, 2019 (attended).

Summer Undergraduate Research Fellowship 2019
Awarded to fund student initiated research leading to a senior thesis and/or publication.

Berkeley Academic Opportunity Fund Grant 2019
Awarded to fund “opportunities for individuals and student groups to represent and further the University of California, Berkeley’s academic prestige and dedication to education”.

Regents’ and Chancellor’s Research Fellowship 2017, 2018
Awarded to fund student initiated research.

**Hong Kong University of Science and Technology
International Research Fellowship** June 2017, Dec. 2017,
Dec. 2018, July 2019
Fellowship fully covering airfare, ground transportation, housing, and meals.

Berkeley Physics Undergraduate Research Scholarship 2017 - 2020
Awarded to fund student research in the physics department.

TEACHING ASSISTANSHIPS

Johns Hopkins AS.171.102 General Physics: Physical Science Majors II Fall 2020

Johns Hopkins AS.173.111 General Physics Laboratory I Fall 2020
